

Installation Parameters

The following command line parameters are accepted by the setup.exe installer file:

/SP-

Disables "Do you wish to continue" prompt at the beginning of setup

/SILENT

Installation shows a progress window but requires no input

/VERYSILENT

Install shows no progress window and requires no input

/NORUN

Program will not launch automatically at the end of the installation

For a completely silent installation use:

setup.exe /SP- /VERYSILENT /NORUN
